

What it is

Our worldwide API producers database is the most robust, up-to-date, and full-featured API producers database available.

**Worldwide API
Producers Database**

WAPD

Worldwide API Producers Database

- Fully curated data means accurate and verified data.
- In addition to verified producers, includes other possible producers so you don't miss a single, possible manufacturing source.
- No trading companies included. – manufacturers only.
- Our producer data is integrated with regulatory approvals and GMP certification so you get the total global picture of the companies who produce the APIs you're interested in.

BECKER DATA

Our producer data is integrated with regulatory approvals and GMP certification

Additional features

- US DMFs;
- VMFs;
- COSs;
- Japanese DMFs;
- Korean DMFs;
- FDA inspection data;
- European GMP;
- Chinese GMP;
- Indian GMP;
- and WHO GMP.

-
- Search for multiple salts in the same search. Why do different searches to see the producers of the sulfate, hydrochloride, phosphate, etc?
 - Includes approximately 3,000 API producers in 86 countries worldwide.
 - Includes approximately 30,000 API names including synonyms so you can search using the name that you know for the molecule.
 - All APIs are tied together by synonyms so you'll get the same results if you search for Acetaminophen or Paracetamol.
 - Search by API name, CAS number, or by company.
